**Subject:** Testimony on Bill #6050"

The studies that have been done for all sorts of tolls show that it is just another burden on the middle class. The high cost of living in this soon to be welfare state is the total elimination of the middle class. I have and still want to stay in CT, but when I retire in hopefully 5 years, I might have to leave..... One of my son's has already moved to South Carolina. It's very tough to be Blue Collar anymore... Obviously I don't want Toll's on our highways. I want a state budget that doesn't borrow money.....forcing people to understand how high the taxes are.  
Thank you ;

Mark Bedard
